Confessed Dynamiter  
Wells of Wheel of Wagon Run-  
ning Over His Head.

WOMAN REFERS TO UNCLE

"I Have Been Next to the  
Wagon," and Knows He Is  
Important Witness.

LOS ANGELES, July 24.—To prove  
he was not wasting away because  
worry over the outcome of his alleged  
involvement in the McManis dynamiting  
case, Orle E. McManis called news-  
men into the county jail today  
and showed by a missing button from  
his hand of his trousers that he was not

McManis had read in the papers al-  
ready that he was extremely nervous  
on the verge of a mental break-  
down. He admitted being worried about  
the case, who is now in a hospital  
treated with nervous prostration, but  
he from that declared himself per-  
fectly content.

McManis drifted into talk of his past  
telling of a fall from a wagon when  
he was nine years old. A just he held  
when he fell and his face and  
arm were badly cut by the jagged frag-  
ments of a wheel of the wagon passed  
over him. A trepanning operation  
was necessary, he said, and thirty-seven  
stitches were made to close the cuts.  
McManis said he knew he was fol-  
lowed by Burns' detectives, who were  
almost close enough for him to  
touch before he was arrested on the  
charge.

He was afraid to go to them," he said,  
and they were afraid to come to me,  
and I have no explanation of his state-  
ment.

McManis could break that fellow in two,"  
McManis said, "I know I am the most  
nervous man now, but my time is coming.  
He came here to see me he said  
he wanted to save me. I told him I  
wanted to hide me, but that little  
thing that he had hidden himself in  
the best place. I know I am the most  
nervous man now, but my time is coming.

ACING YACHTS ARE  
CAUGHT IN STORM

Chicago-Mackinac Race Results in Dis-  
aster; Two Little Vessels Wrecked  
and One Missing.

MACKINAC ISLAND, Mich., July 24.—  
The eleven yachts that left Chicago  
Friday in the Chicago-Mackinac race,  
are anchored in the harbor here,  
and have put in for shelter at different  
times since yesterday morning.  
The result of a storm which  
began its height between 5 and 6  
o'clock this morning after blowing a gale  
all day yesterday.

The winner of the race, the sloop Ma-  
caw, shortly after capturing the  
prize, was dragged and bent anchor and  
beside the pieces on the beach.  
The crew are felt for the safety of the  
sloop, having been heard from  
since yesterday morning, when the  
sloop passed her.

The Juanita is at Charlevoix, where  
she is in for the night. The sloop  
order is around on Fisherman  
road in the Beavers. The capsicum  
sloop arrived here this afternoon, and  
is reported in shelter at  
Manitou. The America and the  
Germania are the first to arrive at night,  
the boats which arrived here show  
evidence of a terrific battle with the

ANY ANSWERS THE  
AMERICAN PROPOSALS

BERLIN, July 24.—The German gov-  
ernment has finished its study of the  
American-Germany arbitration treaty  
proposals and formulated its comment  
on which comment has been for-  
warded to Washington as a basis of ne-  
gotiations. An official statement of the  
German views cannot be  
made as yet, but there is reason to  
believe that they are favor-  
able.

tion to M. Riccardi and Madame Ric-  
cardi, the former Princess de Chimay.

## CHANGING HER FACE

(From the Household Friend.)

Any woman not satisfied with her  
complexion can remove it and have a  
new one. The thin veil of stifling, half  
dead cuticle is an incubator and  
should be removed to give the fresh,  
vigorous young skin underneath a  
chance to show itself and to breathe.  
There is a simple old fashioned home  
remedy which will always do the work.  
Get an ounce of pure mercurized wax  
from your druggist and apply it at  
night like cold cream, washing it off in  
the morning. The mercurized wax gen-  
tly absorbs all the lifeless skin and  
leaves a healthy and beautiful com-  
plexion, as fresh as a child's. Naturally it  
takes with it all such facial blemishes  
as freckles, tan, moth patches, sallo-  
wness, liver spots, pimples, etc. It is  
pleasant to use, effective and econom-  
ical. The face so treated immediately  
looks years younger.

## GREATLY EXTENDING MOTOR CAR SERVICE

New Equipment for Oregon  
Short Line Expected to Ar-  
rive by August 1.

A new 100-passenger motor car has  
been put in operation on the Cache Val-  
ley branch of the Oregon Short Line.  
The new car makes connections with all  
through trains at Cache Junction and  
goes to Preston once and to Logan twice  
every day. This car is in addition to the  
old schedule, which remains the same  
that it has been.

The motor car that was put on the  
line between McCammon and Montpelier,  
Ida., was too high geared for the heavy  
grade there and has been taken off the  
schedule there. Three new motor cars  
have been ordered and are expected to  
arrive here by August 1. One of these is  
a low geared car, built especially for  
the McCammon-Montpelier division of the  
line, and will be put in operation there  
immediately on its arrival.

TRAINMEN TO BLAME.

Investigation of Serious Wreck Near  
Downey Made by Board of Inquiry.

The board of inquiry which met Sat-  
urday to decide on the blame for the  
head-on collision which occurred on the  
Oregon Short Line near Downey, found  
that the blame could be attached to three  
persons. Conductor J. O. Phillips was  
responsible in that he failed to see that  
the head of his train was properly guard-  
ed. Engineer Albert Seaton because he  
failed to whistle out a flag to protect  
the head end of his train, and Fireman  
J. M. Newby because he failed to flag  
and thus protect the head end of his  
train.

Over three thousand dollars worth of  
property was destroyed and several per-  
sons slightly injured in the wreck.

The board of inquiry consisted of P. J. Moran,  
who represented the railroad, A. F. Brewer,  
superintendent of the Utah division, and  
M. A. Pond, H. J. Harris, George Ross  
and O. E. Chambers, assistant superin-  
tendents of the road.
